

Iron Workers of Western PA Profit Sharing Plan Fund Additions

The Iron Workers of Western PA Profit Sharing Plan consistently strives to provide its members with the best selection of investment options possible. After careful consideration and following the recommendation of the Plan's investment advisor, the Trustees have decided to add two new investment options; a high yield bond fund and a Treasury Inflation Protected Securities (TIPS) fund.

Effective **April 12, 2010**, the following funds will be added to the Profit Sharing Plan:

T. Rowe Price Institutional High Yield Fund

This fund seeks to provide above benchmark long-term returns with below average volatility. The fund also focuses on higher quality in the high yield universe.

SSgA Inflation Protected Index Fund

This fund uses a passive bond indexing approach. The fund's strategy seeks to match the returns of the Barclays U.S. TIPS Index by investing in inflation-protected U.S. Treasury Bonds.

SSgA U.S. Inflation Protected Bond Index Fund - Class C

SSgA U.S. Inflation Protected Bond Index Fund Class C represents units of ownership in the U.S. Treasury Inflation Protected Securities Index Non-Lending Series Fund.

The Fund offers broad, low cost exposure to U.S. Treasury bonds which automatically adjust to protect from increases in inflation.

Investment Objective

The SSgA U.S. Inflation Protected Bond Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Barclays Capital U.S. Treasury Inflation Protected Securities (TIPS) Index (the "Index") over the long term

The Fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to replicate, before expenses, the performance of the Index. The Fund may attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. However, it may not be possible for the Fund to purchase some of the securities comprising the Index. In such a case, SSgA will select securities for the Fund that SSgA believes will track the characteristics of the Index. The Fund's returns may vary from the returns of the Index.

Key Facts
